Bells, Strings, Orch Hits, Stabs, Ragga, Vox Drum
Kit, Male & Female spoken, shouted & sung vocals,
Crowds & Chants, Computer Vox, Hed Hits & FX,
SFX, plus an excellent collection of Drum &
Percussion Hits.

Review Quotes: "Coldcut's unequalled success in
their field is heavily dependent upon their ability
to identify the sorts of sounds which have grabbed
a lot of people's heads, filled a lot of dancefloors
and sold a lot of records...where other sample CDs'
bass sounds are just basses, Coldcut's often seem to
be something more...Much the same can be said for
the Organ, Synth, Atmosphere and Guitar
sections... this library is built to be
exploited...Amongst the Hed Hits and Hed FX
you'll find an amazing assortment of noises...Used
properly these sounds are one of the secrets of
modern dance music...you have the knowledge
that they've been selected for you by four of the
best ears in the business." - Music Technology, June
92. "Coldcut's samples are raw, wicked and packed
into the terraces...the quality of the music content is
very high...this CD represents another 'must have'
for any serious dance enthusiast...rough and rowdy
one-offs raring to go." - Sound On Sound, May 92.

coldcut

Volume Six - Norman Cook's Skip to my Loops

Track 20

'Serious Music' followed by intro

Track 21

Sunshine 1 - 84 BPM
Tasty Sin - 92 BPM

LA Groove - 118 BPM

HITCD14 - To be compiled

Artists Credits Include: Prefab Sprout, David Bowie, Thomas Dolby, Primal Scream, Robert Palmer, Level 42,

HITCD04 - 70:53 mins

Artist Credits Include: Sinead O'Connor, Neneh Cherry, Alison Moyet, Mica Paris, World Party.

Features: Acoustic Loops, Electronic Loops, Single Hits - with a wide range of velocities and recording techniques. Kicks, Snares, Hi-Hats, Cymbals, and Toms.

Review Quote: "Recording quality is good...patterns employed cover a wide range of styles...a beat for all seasons, including emulations of many commonly used breaks, and there are no copyright problems." - Sound On Sound, May 92.

drums

Volume Five - Samplography by Pete Gleadall

Track 34

'Optical' followed by intro

Track 35 - Basses

"These basses are all the kind I used on the PSBs last tour."

Track 36 - Heavy MIDI Moog Bass No. 1

"This is a particularly nice patch for a really heavy bass which I've used with the PSBs, Aswad and, funnily enough, the big GM! It works well for riffs/patterns that DON'T go too low."

MIDI Moog Bass No. 2

"More of a typical Moog bass - good for faster bass lines (eg. PSBs or New York Funk), it also sounds good a bit higher up."

Track 37 - Pads

"I've found these three pads which I'll use when I'm stuck. They're useful because they're rich enough texturally but don't clog up tracks by being too thick. My constant battle is getting a pad that will mark out the chordal movement, but doesn't get in the way!"

Composite Pad

"This is a pad that has a little 'ping' at the front end which means each note in a chord can be heard. It's from my D550 and MKS80. It sounds a bit strange when you hear single notes, but believe me it does sound great in a track (promise!). Also the cycling of the D550 element makes it sound like a stretched sample - it's not."

Track 38 - MKS80 Racket

"This is a beast of a sound that works best when hit hard! It's not subtle and works well being gated from a HH pulse track to produce a sequencer-type effect. I used this for 'Where the streets have no name'."

MKS80 Sequence Noise

"Good for 8th or 16th note sequences."

Track 39 - Subliminal Top-end Noise

"This is a sound I've discovered that will add subliminal top end to a track, especially if the track has lots of 'lo-fi' loops or sounds in it and you need some high frequencies to balance it out. On it's own it sounds appalling, but if you play a rhythmical riff that fits the track, especially in the top octave, it will give the whole track a 'subliminal top end'. Only cats and bats can hear it, but, again, honestly it works. eg. GM, Living in a Box, etc."

Birds/Ambience

"This is really good for intros or Mid 8/Bridges where you want some ambience. I use this sort of thing as a bed and add appropriate noises on top."

HITCD 10 - To be compiled.

Artists Credits Include: Pet Shop Boys, George Michael, Aswad, Living In A Box.

Will Feature: Specially selected Synth, Bass, Drum, Percussion, FX, Guitar, String, and much much more.

pop/synth
